Review of operations and activities

Rhinomed Limited ('Rhinomed', 'Group') is seeking to radically improve the way millions of people around the world breathe, sleep, maintain their wellness and take medication.

Our strategy is to commercialise our platform technology and ensure our products are accessible through the world's leading pharmacies, are endorsed and recommended by clinicians and that our platform is utilised by leading medical and pharmaceutical companies to improve the lives of people all around the world.

Pleasingly, your Directors can report that in FY19 the Group made significant progress in achieving these outcomes. The following major milestones were achieved:

- The Group generated strong revenue growth in each quarter of the financial year from the sales of its proprietary nasal technology and closed the year reporting \$3,285,982 of revenues – up more than 50% on 2018 (\$2,169,176).

Revenues

- Net cash used in operating activities was \$4.49 million (up from \$3.85 million in FY18) reflecting a focus on strategic investment in revenue generation.
- The Group held cash reserves of \$1,421,315 at 30 June 2019, an increase from \$1,263,122 for the corresponding period end of 30 June 2018.
- The Group's net assets decreased slightly over the financial year to \$4,620,765 at 30 June 2019 from \$4,766,912 as at 30 June 2018. The net carrying value of the Group's intangible assets of \$2,954,995 remains consistent with the previous period allowing for amortisation charges.
- Store count continued to grow significantly to approx. 11,800 stores by the end of FY19.
- The Group shipped 252,952 units to customers throughout FY19.

Operational commentary

In line with the Group's strategy, Mute continues to be a major area of growth. Nasal congestion, snoring and poor sleep continue to emerge as major contributors to poor health outcomes and chronic disease. Pleasingly over the course of FY19, Mute became the fastest growing brand in the US pharmacy/drug store nasal strip category (56% CAGR) for the 12-month period ended April 2019 according to independent research group IRI (www.drugstoremanagement.com). This provides further confidence in Rhinomed's underlying strategy for sleep in the over-the-counter (OTC) pharmacy market. The Group believes that the unmet clinical need for a range of OTC, non-drug, low cost, low invasive, well tolerated solutions is compelling.

The Turbine brand, while not contributing materially to Group results, remains an integral part of the socialisation process of nasal technology. The Group will continue to assess the fit for this technology within the global sport and exercise market.

Revolutionary new Pronto technology suite

Over the course of the financial year, Rhinomed finalised its new range of technology – the revolutionary new Pronto rechargeable, dual action, vapour release technology. This technology utilises our extensive intellectual property portfolio.

Based on the Group's existing BreatheAssist nasal dilator technology (Mute and Turbine), the new Pronto OTC range includes the novel Airstream release system that allows a continuous release of an essential oil blend into the nasal airstream over a set period of time. By combining this new vapour release technology with the Mute's stenting action, Rhinomed provides users with a unique dual action device that not only improves nasal airflow but also delivers a soothing blend of pure essential oils traditionally known to help clear a stuffy nose or to help you sleep better naturally.

Pronto also includes a novel recharging and storage case that allows Pronto to be recharged before each use. When Pronto is stored in its case in the recharge position, the Pronto device is replenished with the essential oil formulation so it is ready for use again.

The Pronto range went into production in March 2019 with first delivery for stocking with our retail partner Walgreens at the end of May to ensure an on-shelf presence in July 2019.

Pleasingly, in parallel to this development and sell in program, Rhinomed also successfully registered the Pronto range with the Australian TGA, the US FDA and the European Authority as a Class I medical device. This is another critical step in ensuring that the Pronto range can be sold globally and will further assist the Group in its business development activities.

This move from a having Mute deliver the vast majority of revenues to a broader portfolio of offerings underpins our strategy for delivering growth for investors over the coming years.

The Group delivered strong gross margins throughout FY19 and has maintained these during the sell-in process with major retailers. Sales and marketing costs for FY19 have been in line with expectations reflecting the cost of promotional campaigns to support new retail accounts and growth in brand awareness in these markets. This investment is vital to ensuring the Group meets store sell-through expectations in key markets.

The Mute brand continues to grow its awareness amongst both consumers and clinicians. Mute is increasingly being offered as a companion therapy by the rapidly growing sleep dentistry profession. Rhinomed exhibited at the American Dental Sleep Medicine conference and attended the American Sleep Medicine conference in June 2018 in San Antonio, California. Dentists treating sleep disorders are increasingly utilising Mute to resolve nasal obstruction as it is an inexpensive, universally accessible, non-drug alternative. We are pleased to see Mute's inclusion in sleep dental education courses as this mode of therapy grows.

The Group continues to believe that Mute can grow to be a major leader within the OTC retail pharmacy sleep and nasal congestion categories and a front-line solution for sleep related breathing disorders. Mute's performance and the entry of the new Pronto range should assist Rhinomed's goal of being the number one global OTC sleep brand.

Staff numbers remained stable over the course of the year. The Group will continue to monitor corporate and overhead costs to ensure timely investment and appropriate levels of expenditure.

Distribution

Over the course of the financial year, the Group continued to build relationships with several important retailers and wholesalers globally.

- The Group currently sells its technology through wholesalers, retail stores and clinics in the US, Canada, the UK, Taiwan and Australia/New Zealand. This retail footprint is supplemented by an online presence on Amazon and other e-commerce sites.
- In the US, the Group had established relationships with drug store chains with over 11,000 stores.

- In Australia, the Group decided to bring back in house its Australian distribution, this has since delivered a strong return with positive growth in both revenues, brand awareness and store count. Over 1,200 stores now stock our technology in Australia with close to 1,000 stores stocking the product in the UK.
- Globally, store count closed at the end of the financial year at approximately 11,800. With the vast majority of this growth occurring in the second half of FY19.

Key products

Our proprietary technology platform enables the development of multiple applications. The Group has already commercialised two applications and is actively developing further application both internally and with a potential partner. Turbine and Mute are individually customisable nasal dilators that enhance nasal breathing and reduce congestion without placing pressure on the septum.

- Mute is designed to increase airflow and reduce snoring, thereby supporting sleep quality. Mute is light and flexible and can be worn comfortably during sleep. An independent in-home user trial, peer-reviewed literature reviews and market research in the US, UK and Australia has assisted in developing an understanding of the scope of the global market opportunity for breathing technologies.
- Turbine is designed to make breathing easier during aerobic exercise and activity. Because retention in the nose during these activities is vital, Turbine employs more robust materials and retention features on the paddles and curved arms to hold the device in place during intense exercise.
- Pronto Sleep is a unique vapour inhaler that gently opens the nose and delivers a soothing blend of four pure essential oils that are traditionally known to help with relaxation and improved sleep. Pronto Sleep targets those consumers seeking to find a non-drug way of helping them to get to and stay asleep.
- Pronto Clear combines the benefits of a nasal dilator, to open the nose and improve airflow, with the ability to deliver the vapours of six pure essential oils traditionally known to clear a stuffy nose naturally.

Regulatory status

- Mute and Turbine and the Pronto range are registered as a Class I product with regulatory authorities in several key markets – in Australia with the TGA, in the US with the FDA, in Europe where it has received a CE Mark. In addition, Mute and Turbine are registered as Class I products in Canada with Canada Health, and in Taiwan with the Taiwanese FDA.

Platform technology R&D

The Group has created a compelling platform technology capable of meeting a number of clear unmet clinical and consumer health needs. This platform is protected by patents both granted and pending across multiple jurisdictions. To prove out the value of this platform the Group is continuing to design, develop and assess a range of opportunities where nasal drug delivery resolves significant issues encountered by other delivery methods.

In early 2018, the Group completed a licensing agreement with one of the US's largest medical cannabis operators, Columbia Care. The Group expects that this will in time result in the development of a portfolio of products utilising the Group's proprietary nasal technology to deliver cannabis formulations. The Group believes that this relationship will unlock a number of significant opportunities in the US – the fastest growing medical cannabis market in the world. We will continue to assess this opportunity globally and examine the potential for further collaboration and revenue creation.

Rhinomed continues to build a reputation and to be recognised as an innovator and global leader in improving nasal airflow, breathing and sleep. R&D expenditure remains conservative as the Group leverages the existing technology infrastructure. R&D investment during FY19 was \$373k.

Corporate

- As outlined in the FY19 Q4 quarterly statement, the \$2.0 million working capital facility was rolled over. This facility was not utilised during the current financial year.

Financial position

- The Group held cash reserves of \$1,421,315 at 30 June 2019 (2018: \$1,263,122), an increase from the previous period end.
- The Group's net assets were \$4,620,765 compared with \$4,766,912 for the previous year.
- The net carrying value of the Group's intangible assets was \$2,954,995 compared with \$3,316,623 for the previous year.
- The Group recorded a total comprehensive loss for the period of \$5,947,193 after tax reflecting the continuing investment in positioning the technology at the forefront of the sleep market.

Your Directors present their report on the consolidated entity consisting of Rhinomed Limited and the entities it controlled at the end of, or during, the year ended 30 June 2019. Throughout the report, the consolidated entity is referred to as the Group.

Directors

The following persons held office as Directors of Rhinomed Limited during the whole of the financial year and up to the date of this report, except where otherwise stated:

Mr Michael Johnson, Executive Director and Chief Executive Officer
Mr Ron Dewhurst, Non-Executive Chairman
Mr Brent Scrimshaw, Non-Executive Director
Dr Eric Knight, Non-Executive Director

Principal activities

The Group's principal activities in the course of the financial year were research, development and commercialisation of consumer and medical devices. There were no significant changes in the nature of the Group's principal activities during the financial year.

Dividends

No dividends were declared or paid to members for the year ended 30 June 2019 (2018: nil). The Directors do not recommend that a dividend be paid in respect of the financial year.

Review of operations and activities

Information on the operations and financial position of the Group and its business strategies and prospects is set out in the review of operations and activities on pages 1 to 5.

Events since the end of the financial year

On 12 September 2019, Rhinomed Limited commenced listing on the OTCQB market in the United States under the trading code 'RHNMF'. This was followed by the 23 September 2019 announcement of a \$6 million capital raising (before costs) by way of a private placement of 27,272,735 shares at \$0.22 each. These shares were allotted on 26 September 2019.

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Environmental issues

The Group is not affected by any significant environmental regulation in respect of its operations.

Information on Directors

Meetings of Directors

The number of meetings of the Company's Board of Directors ('the Board') and of each board committee held during the year ended 30 June 2019, and the numbers of meetings attended by each Director were:

	Full board		Audit committee		Remuneration committee	
	Attended	Held	Attended	Held	Attended	Held
Mr Michael Johnson	9	9	7	7	-	-
Mr Ron Dewhurst	9	9	6	7	1	1
Mr Brent Scrimshaw	9	9	-	-	1	1
Dr Eric Knight	8	9	7	7	1	1

Held: represents the number of meetings held during the time the Director held office or was a member of the relevant committee.

Remuneration report (audited)

The remuneration report, which has been audited, outlines the key management personnel remuneration arrangements for the Group, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

The remuneration report is set out under the following main headings:

- (a) Remuneration policy
- (b) Details of remuneration
- (c) Service agreements
- (d) Share-based compensation
- (e) Relationship between the remuneration policy and Group performance
- (f) Key management personnel disclosures

(a) Remuneration policy

Principles of compensation

The Board's policies for determining the amount and nature of compensation of key management personnel (KMP) of the Group are as follows.

The compensation structure for key management personnel is based on a number of factors, including length of service, specific experience of the individual, the individual's performance and contribution to the Group and the overall performance of the Group.

The compensation structure of individual key management personnel is embodied in the individual service contracts that include incentives designed to reward key management personnel for results achieved and to retain their services, as well as to create goals congruence between Directors, executives and shareholders.

The Board's policy for determining remuneration is based on the following:

- (i) The policy is developed by and approved by the board;
- (ii) All key management personnel receive base remuneration;
- (iii) Performance incentives are generally only paid once predetermined key performance indicators (KPIs) have been met; and
- (iv) Incentives paid in the form of options are designed to align the interests of the Director and Company with those of shareholders.

All remuneration paid to KMP is valued at the cost to the Group and expensed. KMP are also entitled and encouraged to participate in the employee share and option arrangements to align Directors' interest with shareholders.

Fixed remuneration

Fixed compensation consists of a base salary (calculated on a total cost basis, including any fringe benefits tax related to employee benefits) as well as employer contributions to superannuation funds.

Compensation levels are reviewed annually by the Remuneration Committee through a process that considers individual and Group performance.

Performance linked remuneration

Performance linked compensation includes short-term incentives (STI), in the form of cash bonuses usually paid upon the achievement of predetermined KPIs.

Long-term incentives (LTI) provided are options over ordinary shares in the Group.

Remuneration report (audited) (continued)

(a) Remuneration policy (continued)

Performance linked remuneration (continued)

Performance remuneration is designed to align the targets of the business units with the targets of those executives in charge of meeting those targets. Incentive based payments may be granted to executives based on specific annual targets and KPI being achieved. KPIs include financial and/or operational performance targets. In addition, equity payments in the form of share options may be issued to KMP to further encourage loyalty, share price increase and the alignment of personal and shareholders' interests.

Short-term incentives (STI)

STI bonuses were granted to KMP during the financial year ended 30 June 2019.

Compensation levels are reviewed annually by the Remuneration Committee through a process that considers individual and the Group's achievement.

Long-term incentives (LTI)

Options granted to KMP during the financial year ended 30 June 2019 are shown in item (d) of this remuneration report.

Relationship between the remuneration policy and the Group's performance

The remuneration of executives consists of fixed base pay and cash bonus based on performance in relation to key strategic, non-financial measures linked to drivers of performance in future reporting periods. It also comprises the issue of options to Directors and executives to encourage the alignment of personal and shareholder interests. As such, remuneration is not linked to the financial performance of the Group in the current or previous reporting periods. Further details are provided in item (e) of this remuneration report.

(b) Details of remuneration

Amounts of remuneration

The key management personnel consisted of the following Directors of Rhinomed Limited:

- Mr Michael Johnson, Executive Director and Chief Executive Officer
- Mr Ron Dewhurst, Non-Executive Chairman
- Mr Brent Scrimshaw, Non-Executive Director
- Dr Eric Knight, Non-Executive Director

And the following other key management personnel:

- Mr Sean Slattery, Chief Financial Officer (appointed 1 December 2018)
- Mr Shane Duncan, Vice President Global Sales and Marketing (resigned 28 November 2018)

Details of the remuneration of the key management personnel of the Group are set out in the following tables.

Remuneration report (audited) (continued)

(b) Details of remuneration (continued)

Amounts of remuneration (continued)

2019	Short-term employee benefits					Share based payments	Total	Proportion of remuneration performance related
	Cash salary and fees	Cash bonus ¹	Non-monetary benefits	Post-employment benefits Super-annuation	Long-term benefits Long service leave

¹ Michael Johnson received a \$115,000 discretionary bonus for meeting key strategic, non-financial measures linked to drivers of performance in future reporting period performance, approved by the board in FY 2020.

² Mr Sean Slattery appointed as Chief Financial Officer on 1 December 2018.

³ Mr Shane Duncan resigned as Vice President Global Sales and Marketing on 28 November 2018.

Remuneration report (audited) (continued)

(c) Service agreements

Contractual arrangements with executive KMPs

Remuneration and other terms of employment for key management personnel are formalised in service agreements. Details of these agreements are as follows:

Name: Mr Michael Johnson

Title: Executive Director and Chief Executive Officer (appointed 1 February 2013)

Term of agreement: Standard rolling agreement (no fixed term)

Details: The employment conditions of Mr Michael Johnson are formalised in an employment contract. This contract includes a notice period of six months by either party. Mr Johnson's contract provides for redundancy pay of 36 weeks' pay given more than five years' continuous service if required under law (for example, if Rhinomed Limited is determined to be a 'small business', redundancy payments may be required). As a KMP, Mr Johnson is entitled to participate in the Group's 'employee share and option plan'.

Name: Mr Sean Slattery

Title: Chief Financial Officer (appointed 1 December 2018)

Term of agreement: Standard rolling agreement (no fixed term)

Details: The employment conditions of Mr Sean Slattery are formalised in an employment contract. This contract includes a termination period of two months by either party. As a KMP, Mr Slattery is entitled to participate in the Group's 'employee share and option plan'.

Non-Executive Director arrangements

In accordance with best practice corporate governance, the structure of Non-Executive Director and executive remuneration is separate and distinct.

Fees and payments to Non-Executive Directors reflect the demands which are made on, and the responsibilities of, the Directors. Non-Executive Directors' fees and payments are reviewed annually by the Board. The Board considers advice from external sources as well as the fees paid to Non-Executive Directors of comparable companies when undertaking the annual review process.

The Chairman's fees are determined independently to the fees of other Non-Executive Directors based on comparative roles in the external market. The Chairman is not present at any discussions relating to determination of his own remuneration.

Directors' fees cover all main board activities and committee memberships.

All Non-Executive Directors have an agreement for services with the Company that is ongoing. There is no termination clause within the agreement and no entitlement to a termination payment.

Key management personnel have no entitlement to termination payments in the event of removal for misconduct.

(d) Share-based compensation

Issue of shares

There were no issues of shares to key management personnel in the year ended 30 June 2019.

Options

The number of options over ordinary shares granted to and vested by key management personnel as part of compensation during the year ended 30 June 2019 are set out below:

Remuneration report (audited) (continued)

(d) *Share-based compensation (continued)*

Options (continued)

	Number of options granted during the year		Number of options vested during the year	
	2019	2018	2019	2018
Mr Michael Johnson	3,000,000	-	3,000,000	-
Mr Ron Dewhurst	3,000,000	-	3,000,000	-
Mr Brent Scrimshaw	1,500,000	-	1,500,000	-
Dr Eric Knight	1,500,000	-	1,500,000	-
Total	9,000,000	-	9,000,000	-

The terms and conditions of each grant of options over ordinary shares affecting remuneration of key management personnel in this financial year or future reporting years are as follows:

Grant date	Vesting date and exercisable date	Expiry date	Exercise price	Fair value per option at grant date
14/12/2018	14/12/2018	21/12/2021	\$0.287	\$0.1027

Options granted carry no dividend or voting rights and the value of the grant was determined in accordance with applicable Australian Accounting Standards.

There have been no alterations to the terms or conditions of any grants since grant date. All options granted entitle the holder to one ordinary share for each option exercised.

The fair value of the options granted as remuneration has been determined in accordance with Australian Accounting Standards and recognised over the vesting period to the extent that conditions necessary for vesting are met. All outstanding options at the date of this report vested immediately on grant, without performance or service conditions. Values of options over ordinary shares granted, exercised and lapsed for Directors and other key management personnel as part of compensation during the year ended 30 June 2019 are set out below:

	Value of options granted during the year ¹	Value of options exercised during the year	Value of options lapsed during the year
	\$	\$	\$
Mr Michael Johnson	307,950	-	-
Mr Ron Dewhurst	307,950	-	-
Mr Brent Scrimshaw	153,975	-	-
Dr Eric Knight	153,975	-	-
Total	923,850	-	-

¹ Option values at grant date are determined using the Black-Scholes model.

Remuneration report (audited) (continued)

(e) Relationship between the remuneration policy and Group performance

As detailed under heading (a), remuneration of executives consists of fixed base pay and cash bonus based on performance in relation to key strategic, non-financial measures linked to drivers of performance in future reporting periods. As such, remuneration is not linked to the financial performance of the Group in the current or previous reporting periods.

The tables below set out summary information about the Group's earnings and movement in shareholder wealth for the five years to 30 June 2019:

	30 June 2019	30 June 2018	30 June 2017	30 June 2016	30 June 2015
	\$	\$	\$	\$	\$
Revenue	3,285,982	2,169,176	1,717,225	1,012,433	432,460
Net loss before tax	(5,928,690)	(4,079,747)	(4,721,522)	(6,435,986)	(5,887,329)

24/01/2017	30/12/2020	\$0.400	-	150,000
28/04/2017	30/04/2020	\$0.270	-	6,000,000
14/12/2018	21/12/2021	\$0.287	-	9,000,000
Total			2,876,923	15,150,000

No option holder has any right under the options to participate in any other share issue of the Company or any other entity.

Shares issued on the exercise of options

No ordinary shares of Rhinomed Limited were issued during the year ended 30 June 2019 on the exercise of options granted.

Indemnity and insurance of officers

Insurance of officers

During the financial year, Rhinomed Limited paid a premium to insure the Directors and secretaries of the Company.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of entities in the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else or to cause detriment to the Company. It is not possible to apportion the premium between amounts relating to the insurance against legal costs and those relating to other liabilities.

Indemnity of auditors

Rhinomed Limited has not, during or since the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor. During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

Non-audit services

The Company may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company and/or the Group are important.

Details of the amounts paid or payable to the auditor (HLB Mann Judd) for audit and non-audit services provided during the year are set out below.

The Directors have considered the position and, in accordance with advice received from the Audit Committee, is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed by the Audit Committee to ensure they do not impact the impartiality and objectivity of the auditor.
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*.

During the year the following fees were paid or payable for non-audit services provided by the auditor of the parent entity, its related practices and non-related audit firms:

	2019	2018
	\$	\$
Taxation services		
HLB Mann Judd Australian firm:		
Tax compliance services	12,500	12,500
Total remuneration for taxation services	12,500	12,500
 Total remuneration for non-audit services	12,500	12,500

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 21.

For personal use only

Rounding of amounts

The Company is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the Directors' report. Amounts in the Directors' report have been rounded off in accordance with the instrument to the nearest dollar.

This report is made in accordance with a resolution of Directors.

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the consolidated financial report of Rhinomed Limited for the year ended 30 June 2019, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (a) the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (b) any applicable code of professional conduct in relation to the audit.

This declaration is in relation to Rhinomed Limited and the entities it controlled during the year.

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

For personal use only

1 Segment information

The Group has identified one reportable operating segment; that is, the identification, acquisition and commercialisation of late stage therapeutic delivery technologies. The segment details are therefore fully reflected in the body of the financial report.

2 Revenue from contract with customers

The Group derives revenue from the transfer of goods at a point in time.

	2019	2018
	\$	\$
Sale of goods	3,285,982	2,169,176

(a) Liabilities related to contracts with customers

	2019	2018
	\$	\$
Contract liabilities - deferred revenue	556,297	-

With the Group's adoption of AASB 15 *Revenue from Contracts with Customers*, deferred revenue is recognised as part of contract liabilities from 1 July 2018. Deferred revenue for the year ended 30 June 2018 is stated on the face of the consolidated statement of financial position.

(b) Accounting policies

(i) Sale of goods

Revenue from the sale of late stage therapeutic delivery products are recognised at a point in time. The performance obligation is satisfied when the customer has access and thus control of the product. Transfer of control occurs at the time of delivery to the ultimate customer, which is the end consumer as opposed to intermediary retail locations.

(ii) Financing components

The Group does not have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds 12 months. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(iii) Previous accounting policy for revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. The Group recognises revenue at the point of delivery as this corresponds to the transfer of significant risks and rewards of ownership of the goods and the cessation of all involvement in those goods.

(iv) Impact of change in accounting policy

There was no change in the revenue recognition treatment applied by the Group under the new and previously applied accounting standards. The impact of adopting the new accounting standard on revenue recognition, AASB 15 *Revenue from Contracts with Customers*, is further discussed in note 20(c).

Share-based payments	254,059	-
Other expenses not deductible	13,609	(1,767)
Other items	(59,899)	(47,771)
Deferred tax assets relating to tax losses not recognised	1,323,173	1,147,443
Adjustments for current tax of prior periods	(12,052)	-
Income tax (expense)/benefit	(12,052)	75,423

5 Financial assets and financial liabilities

(a) Cash and cash equivalents

	2019	2018
	\$	\$
Cash at bank	1,421,315	1,263,122
	1,421,315	1,263,122

(i) Reconciliation to cash flow statement

The above figures reconcile to the amount of cash shown in the consolidated statement of cash flows at the end of the financial year as follows:

	2019	2018
	\$	\$
Balances as above	1,421,315	1,263,122
Balances per statement of cash flows	1,421,315	1,263,122

(ii) Classification as cash equivalents

Term deposits are presented as cash equivalents if they have a maturity of three months or less from the date of acquisition and are repayable with 24 hours notice with no loss of interest. See note 19(j) for the Group's other accounting policies on cash and cash equivalents.

5 Financial assets and financial liabilities (continued)

(b) Trade and other receivables

	Notes	Current \$	2019 Non- current \$	Total \$	Current \$	2018 Non- current \$	Total \$
Trade receivables		594,089	-	594,089	837,552	-	837,552
Loss allowance	9(c)(iii)	(58,138)	-	(58,138)	-	-	-
		535,951	-	535,951	837,552	-	837,552
Net consumption tax receivables		45,723	-	45,723	592	-	592
Total trade and other receivables		581,674	-	581,674	838,144	-	838,144

(i) Classification as trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. They are generally due for settlement within 30 days and therefore are all classified as current. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method. Details about the Group's impairment policies and the calculation of the loss allowance are provided in note 9(c)(iii).

(ii) Impairment and risk exposure

Information about the impairment of trade receivables and the Group's exposure to credit risk, foreign currency risk and interest rate risk can be found in note 9.

(c) Trade and other payables

	Current \$	2019 Non- current \$	Total \$	Current \$	2018 Non- current \$	Total \$
Trade payables	365,310	-	365,310	560,870	-	560,870
Accrued expenses	21,238	-	21,238	2,368	-	2,368
Other payables	208,229	-	208,229	132,837	-	132,837
	594,777	-	594,777	696,075	-	696,075

Trade payables are unsecured and are usually paid within 30 days of recognition.

The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

6 Non-financial assets and liabilities

(a) Property, plant and equipment

Non-current	Plant and equipment \$	Furniture, fittings and equipment \$	Total \$
At 1 July 2017			
Cost	313,656	68,112	381,768
Accumulated depreciation	(312,094)	(45,748)	(357,842)
Net book amount	1,562	22,364	23,926
Year ended 30 June 2018			
Opening net book amount	1,562	22,364	23,926
Additions	11,777	25	11,802
Depreciation charge	(2,659)	(7,816)	(10,475)
Closing net book amount	10,680	14,573	25,253
At 30 June 2018			
Cost	325,433	68,137	393,570
Accumulated depreciation	(314,753)	(53,564)	(368,317)
Net book amount	10,680	14,573	25,253
Year ended 30 June 2019			
Opening net book amount	10,680	14,573	25,253
Additions	228,402	2,394	230,796

Closing net book amount	209,298	12,861	222,159
At 30 June 2019			
Cost or fair value	553,835	70,531	624,366
Accumulated depreciation and impairment	(344,537)	(57,670)	(402,207)
Net book amount	209,298	12,861	222,159

(i) Depreciation methods and useful lives

Property, plant and equipment is recognised at historical cost less depreciation.

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as follows:

- Plant and equipment 4 - 6 years
- Furniture, fittings and equipment 3 - 5 years

See note 19(n) for the other accounting policies relevant to property, plant and equipment.

6 Non-financial assets and liabilities (continued)

(i) Impairment of intangibles

The Directors conducted an impairment assessment of the Group's intangible assets as at 30 June 2019 and concluded that an impairment charge was not necessary. The Directors assessed that intellectual property and development costs have a finite useful life of 9.5 years. Intangible assets have been subject to an impairment test whereby the recoverable amount was compared to their written-down value. Recoverable amount has been determined by the Board by preparing a value-in-use calculation using cash flow projections over a five-year period with a terminal value calculated on a perpetual growth basis, a fair value calculation using cash flow projections over a five-year period applying a terminal value on EBIT multiple basis, and taking the higher of the two in accordance with Australian Accounting Standards. The cash flows were discounted using a pre-tax discount rate of 20 percent (2018: 20 percent) at the beginning of the projection period. The projections reflected the Board's best estimate of the product's expected market share, its expanding distribution network and the Group's revenue stream. Gross profit was determined factoring in expected cost structures as well as estimated inflation rates over the period. A possible reasonable change in the discount rate or store numbers would not result in an impairment of the intangible assets.

6 Non-financial assets and liabilities (continued)

(b) Intangible assets (continued)

In performing the impairment review, the Directors have determined that the cash generating unit (CGU) is to be assessed on a Group level, consistent with the Group's single segment as disclosed in note 1.

(ii) Amortisation methods and useful lives

As the Group has commenced commercialisation of the BreatheAssist technology, an amortisation charge is recognised for development costs and intellectual property over the asset's useful life. An amortisation charge is recognised for \$361,628 (2018: \$361,628) and was recorded for the period.

The intangible assets have been assessed as having a finite life and are amortised using the straight-line method over a period of 9.5 years for 2019 and 2018.

(c) Inventories

	2019	2018
	\$	\$
Raw materials at cost	13,046	16,228
Finished goods at cost	211,541	259,230
Inventory on consignment at cost	112,385	83,612
	336,972	359,070

(d) Employee benefit obligations

	2019			2018		
	Current	Non-current	Total	Current	Non-current	Total
	\$	\$	\$	\$	\$	\$
Leave obligations (i)	48,218	50,970	99,188	53,364	20,879	74,243

(i) Leave obligations

The leave obligations cover the Group's liabilities for long service leave and annual leave which are classified as either other long-term benefits or short-term benefits, as explained in note 19(q).

Provision for employee benefits represents amounts accrued for annual leave and long service leave.

The current portion for this provision includes the total amount accrued for annual leave entitlements and the amounts accrued for long service leave entitlements that have vested due to employees having completed the required period of service. Based on past experience, the Group does not expect the full amount of annual leave or long service leave balances classified as current liabilities to be settled within the next 12 months. However, these amounts are classified as current liabilities as the Group does not have an unconditional right to defer the settlement of these amounts in the event employees wish to use their leave entitlement.

The non-current portion for this provision includes amounts accrued for long service leave entitlements that have not yet vested in relation to those employees who have not yet completed the required period of service.

In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data. The measurement and recognition criteria relating to employee benefits have been discussed in note 19(q).

7 Equity

(a) Issued capital

(i) Movements in ordinary shares

Details	Number of shares	\$
Balance at 1 July 2017	93,637,159	50,934,839

Balance at 30 June 2019	141,933,281	59,243,447

(ii) Ordinary shares

Ordinary shares entitle the holder to participate in dividends, and to share in the proceeds of winding up the Company in proportion to the number of and amounts paid on the shares held.

On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the Company does not have a limited amount of authorised capital.

7 Equity (continued)

(b) Reserves

	Option reserve \$	NCI reserve \$	Foreign exchange reserve \$	Total \$
Balance at 1 July 2017	824,089	(6,158,687)	(28,985)	(5,363,583)

9 Financial risk management

(a) Financial instruments

The Group's financial instruments are detailed below:

	Notes	2019 \$	2018 \$
Cash and cash equivalents	5(a)	1,421,315	1,263,122
Net trade receivables at amortised cost	5(b)	535,951	837,552
Other financial assets at amortised cost		87,170	52,170
Trade and other payables at amortised cost	5(c)	(594,777)	(696,075)
		1,449,659	1,456,769

(b) Risk management policy

The Board is responsible for overseeing the establishment and implementation of the risk management system, and reviews and assesses the effectiveness of the Group's implementation of that system on a regular basis.

The Directors and senior management identify the general areas of risk and their impact on the activities of the Group, with management performing a regular review of:

- the major risks that occur within the business;
- the degree of risk involved;
- the current approach to managing the risk; and
- if appropriate, determine:
 - any inadequacies of the current approach; and
 - possible new approaches that more efficiently and effectively address the risk.

Management reports risks identified to the Board through the monthly 'operations report'.

The Group seeks to ensure that its exposure to undue risk which is likely to impact its financial performance, continued growth and survival is minimised in a cost effective manner.

(c) Elements of risk

The main risks the Group is exposed to through its operations are interest rate risk, foreign exchange risk, credit risk and liquidity risk.

(i) Interest rate risk

The Group is exposed to interest rate risk via the cash and cash equivalents and other financial assets that it holds. Interest rate risk is the risk that a financial instruments value will fluctuate as a result of changes in market interest rates.

Instruments with cash flow risk	Notes	2019 \$	2018 \$
Cash and cash equivalents	5(a)	1,421,315	1,263,122
Other financial assets at amortised cost		87,170	52,170
		1,508,485	1,315,292

9 Financial risk management (continued)

(c) Elements of risk (continued)

An increase or decrease of 0.17% (2018: 0.20%) in interest rates at the reporting date would have the following increase/(decrease) effect on cash and cash equivalents and other financial assets. The analysis assumes that all other variables remain constant.

The use of 0.17% for the year ended 30 June 2019 was determined based on analysis of the Reserve Bank of Australia rates change, on an absolute value basis, between June 2017, June 2018 and June 2019. The use of 0.20% for the year ended 30 June 2018 was determined based on analysis of the Reserve Bank of Australia rates change, on an absolute value basis, between June 2016, June 2017 and June 2018.

	2019	2018
	+0.17%/ -0.17%	+0.2%/ -0.2%
	\$	\$
Cash and cash equivalents	2,416/(2,416)	2,526/(2,526)
Other financial assets at amortised cost	148/(148)	104/(104)
	2,564/(2,564)	2,630/(2,630)

(ii) Foreign exchange risk

The Group undertakes certain transactions denominated in foreign currency and is exposed to foreign currency risk through foreign exchange rate fluctuations.

Foreign exchange rate risk arises from future commercial transactions and recognised financial assets and financial liabilities denominated in a currency that is not the Group's presentation currency.

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the reporting date are as follows (amounts presented in Australian dollars):

2019	USD	GBP	Total
Assets	777,542	274,202	1,051,744
Liabilities	(198,478)	(13,553)	(212,031)
	579,064	260,649	839,713

2018	USD	GBP	EUR	NZD	Total
Assets	868,051	142,985	-	-	1,011,036
Liabilities	(256,929)	(12,886)	(3,114)	(384)	(273,313)
	611,122	130,099	(3,114)	(384)	737,723

A strengthening or weakening of the Australian dollar against the following currencies would have an equal and opposite effect on the loss after tax and equity as outlined below. The analysis assumes that all other variables remain constant.

During the current financial period, the percentage movement was determined based on the analysis of USD and GBP change (2018: USD, GBP, EUR and NZD), on a high and low value basis, between 30 June 2018 and 30 June 2019 (2018: between 30 June 2017 and 30 June 2018). The average change of these currencies within this period was approximately 8% and 8%, for USD and GBP, respectively (2018: 11%, 12%, 10% and 7%, for USD, GBP, EUR and NZD, respectively).

9 Financial risk management (continued)

(c) Elements of risk (continued)

	2019	2018
	+%/-%	+%/-%
	\$	\$
United State dollar (USD)	46,325/(46,325)	67,223/(67,223)
Pound sterling (GBP)	20,852/(20,852)	15,612/(15,612)
Euro (EUR)	-	(311)/311
New Zealand dollar (NZD)	-	(38)/38
	67,177/(67,177)	82,486/(82,486)

(iii) Credit risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Risk management

Credit risk is managed through the maintenance of procedures (such as the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring the financial stability of significant customers and counterparties), ensuring to the extent possible that customers and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Credit terms are normally 30 days from the invoice date.

Risk is also minimised through investing surplus funds in financial institutions that maintain a high credit rating.

Impairment of financial assets

The Group has one type of financial asset subject to the expected credit loss model:

- trade receivables for sales of inventory

While cash and cash equivalents are also subject to the impairment requirements of AASB 9, the identified impairment loss was immaterial.

Trade receivables

The Group applies the AASB 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables assets have been grouped based on shared credit risk characteristics and the days past due.

The expected loss rates are based on the payment profiles of sales over a period of 24 months before 30 June 2019 and the corresponding historical credit losses experienced within this period. The historical loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors affecting the ability of the customers to settle the receivables.

On that basis, the loss allowance as at 30 June 2019 from the expected credit loss method was determined to be \$58,138. This amount was ascertained based on an individual client analysis; the identified loss beyond this at a portfolio level was determined to be immaterial.

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 121 days past due.

Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

9 Financial risk management (continued)

(c) Elements of risk (continued)

Previous accounting policy for impairment of trade receivables

In the prior year, the impairment of trade receivables was assessed based on the incurred loss model. Individual receivables which were known to be uncollectible were written off by reducing the carrying amount directly. The other receivables were assessed collectively to determine whether there was objective evidence that an impairment had been incurred but not yet been identified. For these receivables the estimated impairment losses were recognised in a separate provision for impairment. The Group considered that there was evidence of impairment if any of the following indicators were present:

- significant financial difficulties of the debtor
- probability that the debtor will enter bankruptcy or financial reorganisation, and
- default or late payments (more than 121 days overdue).

Receivables for which an impairment provision was recognised were written off against the provision when there was no expectation of recovering additional cash.

(iv) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk as follows:

- preparation of cash flow analyses related to its operating, investing and financing activities;
- obtaining funding from a variety of sources;
- managing credit risk related to financial assets; and
- investing surplus funds with reputable financial institutions.

The Group's exposure to interest rate risk and the weighted average interest rates on the Group's financial assets and financial liabilities is as follows:

2019	Notes	Floating interest rate \$	Non-interest bearing \$	Fixed interest bearing \$	Total \$

Trade and other payables at amortised cost	5(c)	696,075	696,075	696,075	-
Total financial liabilities		696,075	696,075	696,075	-

(vi) Net fair values

The Directors consider that the carrying amount of financial assets and liabilities recorded in the financial statements approximate their fair value.

(d) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain an optimal capital structure so as to maximise shareholders' value. In order to maintain or achieve an optimal capital structure, the Group may issue new shares or reduce its capital, subject to the provisions of the Group's constitution. The capital structure of the Group consists of equity attributed to equity holders of the Group, comprising contributed equity, reserves and accumulated losses disclosed in note 7. By monitoring undiscounted cash flow forecasts and actual cash flows provided to the Board by the Group's management, the Board monitors the need to raise additional equity from the equity markets.

10 Interests in other entities

(a) Material subsidiaries

The Group's principal subsidiaries at 30 June 2019 are set out below. Unless otherwise stated, they have share capital consisting solely of ordinary shares that are held directly by the Group, and the proportion of ownership interests held equals the voting rights held by the Group. The country of incorporation or registration is also their principal place of business.

Name of entity	Place of business/ country of incorporation	Ownership interest held by the Group	
		2019 %	2018 %
ASAP Breatheassist Pty Ltd	Australia	100	100
Rhinomed UK Limited	United Kingdom	100	100
Breatheassist Limited	United Kingdom	100	100
Rhinomed Inc.	United States	100	100

11 Contingent liabilities and contingent assets

The Group had no contingent liabilities at 30 June 2019 (2018: nil).

12 Commitments

(a) Non-cancellable operating leases

	2019 \$	2018 \$
<i>Commitments for minimum lease payments in relation to non-cancellable operating leases are payable as follows:</i>		
Within one year	77,064	95,950
Later than one year but not later than five years	-	74,438
	77,064	170,388

The property lease is a non-cancellable lease with a three-year term, with rent payable monthly in advance. Contingent rental provisions within the lease agreement permit the minimum lease payments to increase by 4% per annum. The current lease expires on 31 March 2020. An option exists to renew the lease at the end of the three-year term for an additional term of three years; the Group does not intend to exercise this option.

The Group entered into a second non-cancellable property lease with a five-year term starting on 1 August 2019, entered into on 30 July 2019, with rent payable monthly in advance. Contingent rental provisions within the lease agreement permit the minimum lease payments to increase by 4% per annum. The current lease expires on 31 July 2024. An option exists to renew the lease at the end of the five-year term for an additional term of five years.

12 Commitments (continued)

(b) Other expenditure commitments

	2019	2018
	\$	\$
<i>Commitments contracted at balance date but not recognised as liabilities are as follows:</i>		
Within one year	2,759	920
Later than one year but not later than five years	4,138	-
	6,897	920

13 Events occurring after the reporting period

On 12 September 2019, Rhinomed Limited commenced listing on the OTCQB market in the United States under the trading code 'RHNMF'. This was followed by the 23 September 2019 announcement of a \$6 million capital raising (before costs) by way of a private placement of 27,272,735 shares at \$0.22 each. These shares were allotted on 26 September 2019.

No other matter or circumstance has arisen since 30 June 2019 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

14 Related party transactions

(a) Subsidiaries

Interests in subsidiaries are set out in note 10.

(b) Key management personnel

Disclosures relating to key management personnel are set out in the remuneration report in the Directors' report.

(i) Details of key management personnel

Directors:

- Mr Michael Johnson, Executive Director and Chief Executive Officer
- Mr Ron Dewhurst, Non-Executive Chairman
- Mr Brent Scrimshaw, Non-Executive Director
- Dr Eric Knight, Non-Executive Director

And the following other key management personnel:

- Mr Sean Slattery, Chief Financial Officer (appointed 1 December 2018)
- Mr Shane Duncan, Vice President Global Sales and Marketing (resigned 28 November 2018)

14 Related party transactions (continued)

(b) Key management personnel (continued)

(ii) Compensation

The aggregate compensation made to Directors and other members of key management personnel of the Group is set out below:

	30 June 2019	30 June 2018
Short-term employee benefits	982,120	780,254
Post-employment benefits	54,528	37,747
Share-based payments	923,850	-
	1,960,498	818,001

(iii) Other related party transactions

	30 June 2019	30 June 2018
Payment for goods and services:		
Smart Street Solutions*	120,615	88,660

* Consulting fees paid to Smart Street Solutions, a business associated with Mr Michael Johnston.

Detailed remuneration disclosures are provided in the remuneration report on pages 10 to 17.

(iv) Receivables from and payables to related parties

Outstanding balances payable at the end of the current year to Smart Street Solutions comprises \$10,048 (2018: \$20,668). Smart Street Solutions provides consulting and marketing related services to the Group.

There are no other outstanding balances at the reporting date in relation to transactions with related parties.

15 Share-based payments

The establishment of the 'employee share and option plan' (ESOP) was approved by shareholders at the 2017 annual general meeting. The plan is designed to provide long-term incentives for employees (including Directors) to deliver long-term shareholder returns. Participation in the plan is at the Board's discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits.

Set out below are summaries of options granted under ESOP which was established to provide ongoing incentive to reward employees and consultants for their contribution to the Group's performance:

2019

Grant date	Expiry date	Exercise price	Balance at 1 July	Granted	Exercised	Lapsed	Balance at 30 June
		\$

24/01/2017	30/12/2020	0.400	150,000	150,000
28/04/2017	30/04/2020	0.270	6,000,000	6,000,000
14/12/2018	21/12/2021	0.287	9,000,000	
Total exercisable			15,150,000	9,026,923

The weighted average remaining contractual life of options outstanding at year end is 1.61 years (2018: 1.36 years).

(a) Options granted in current period

The following share-based payment arrangements were entered into during the year ended 30 June 2019 due to new options granted and vested:

Recipient	Grant date	Vesting date	Expiry date	Exercise price (\$)	No. of options	Fair value (\$)
Mr Michael Johnson	14-Dec-2018	14-Dec-2018	21-Dec-2021	0.287	3,000,000	307,950
Mr Ron Dewhurst	14-Dec-2018	14-Dec-2018	21-Dec-2021	0.287	3,000,000	307,950
Mr Brent Scrimshaw	14-Dec-2018	14-Dec-2018	21-Dec-2021	0.287	1,500,000	153,975
Dr Eric Knight	14-Dec-2018	14-Dec-2018	21-Dec-2021	0.287	1,500,000	153,975

(i) Fair value of options granted

For the options granted during the year ended 30 June 2019, the valuation model inputs used to determine the fair value at the grant date are outlined below:

Recipient	Share price at grant date (\$)	Exercise price (\$)	Term in years	Expected volatility	Dividend yield	Risk-free interest rate	Fair value per option at grant date (\$)
Mr Michael Johnson	0.205	0.287	3	89.00%	0.00%	1.975%	0.1027
Mr Ron Dewhurst	0.205	0.287	3	89.00%	0.00%	1.975%	0.1027
Mr Brent Scrimshaw	0.205	0.287	3	89.00%	0.00%	1.975%	0.1027
Dr Eric Knight	0.205	0.287	3	89.00%	0.00%	1.975%	0.1027

15 Share-based payments (continued)

(a) Options granted in current period (continued)

On 14 December 2018, Rhinomed Limited issued 9,000,000 options vesting immediately to Directors of the Group. The assessed fair value of options issued was determined using the Black-Scholes option pricing model that takes into account the exercise price, term of the option, security price at grant date and expected price volatility of the underlying security, the expected dividend yield, the risk-free interest rate for the term of the security and certain probability assumptions. Historical share price volatility has been used to determine the expected share price volatility as it is assumed that this is indicative of future volatility.

(b) Expenses arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	2019	2018
	\$	\$
Options issued under ESOP	923,850	-

16 Remuneration of auditors

During the year the following fees were paid or payable for services provided by the auditor of the parent entity, its related practices and non-related audit firms:

(a) HLB Mann Judd

(i) Audit and other assurance services

	2019	2018
	\$	\$
Audit and review of financial statements	64,000	56,700
Total remuneration for audit and other assurance services	64,000	56,700

(ii) Taxation services

Tax compliance services	12,500	12,500
Total remuneration for taxation services	12,500	12,500

Total remuneration of HLB Mann Judd	76,500	69,200
--	---------------	---------------

17 Loss per share

(a) Reconciliation of loss used in calculating loss per share

	2019	2018
	\$	\$
<i>Basic and diluted loss per share</i>		
Loss attributable to the ordinary equity holders of the Company used in calculating loss per share:		
From continuing operations	5,940,742	4,004,324

(b) Weighted average number of shares used as the denominator

	2019	2018
	Number	Number
Weighted average number of ordinary shares used as the denominator in calculating basic and diluted loss per share	133,078,739	106,934,592

On the basis of the Group's losses, the outstanding options as at 30 June 2019 are considered to be anti-dilutive and therefore were excluded from the diluted weighted average number of ordinary shares calculation.

18 Parent entity financial information

(a) Summary financial information

Set out below is the supplementary information about the parent entity.

	2019	2018
	\$	\$
Balance sheet		
Current assets	1,012,707	1,016,167
Non-current assets	19,446,730	17,480,113
Total assets	20,459,437	18,496,280
Current liabilities	302,611	252,868
Non-current liabilities	50,970	20,879
Total liabilities	353,581	273,747
Net assets	20,105,856	18,222,533
<i>Shareholders' equity</i>		
Issued capital	59,243,448	54,366,251
Reserves	1,571,430	824,089
Accumulated losses	(40,709,022)	(36,967,807)
Total equity	20,105,856	18,222,533

18 Parent entity financial information (continued)

(a) Summary financial information (continued)

Loss for the year	3,917,658	2,210,679
Total comprehensive loss for the year	3,917,658	2,210,679

(b) Guarantees entered into by the parent entity

The parent entity has not entered into any guarantees in relation to debts of its subsidiaries in the year ended 30 June 2019 (2018: nil).

(c) Contingent liabilities of the parent entity

The parent entity did not have any contingent liabilities as at 30 June 2019 or 30 June 2018.

(d) Contractual commitments for the acquisition of property, plant or equipment

The parent entity has not entered into any contractual commitments for the acquisition of property, plant or equipment in the year ended 30 June 2019 (2018: nil).

(e) Determining the parent entity financial information

The financial information for the parent entity has been prepared on the same basis as the consolidated financial statements, except as set out below.

(i) Investments in subsidiaries, associates and joint venture entities

Investments in subsidiaries are accounted for at cost in the financial statements of Rhinomed Limited.

(ii) Tax consolidation legislation

Rhinomed Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Rhinomed Limited, and the controlled entities in the tax consolidated Group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated Group continues to be a stand-alone taxpayer in its own right.

In addition to its own current and deferred tax amounts, Rhinomed Limited also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated Group.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Rhinomed Limited for any current tax payable assumed and are compensated by Rhinomed Limited for any current tax receivable and deferred tax assets relating to unused tax losses or unused tax credits that are transferred to Rhinomed Limited under the tax consolidation legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amounts receivable/payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as current amounts receivable from or payable to other entities in the Group.

Any difference between the amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution to (or distribution from) wholly-owned tax consolidated entities.

19 Summary of significant accounting policies

This note provides a list of all significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the periods presented, unless otherwise stated. The financial statements are for the Group consisting of Rhinomed Limited and its subsidiaries.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001*. Rhinomed Limited is a for-profit entity for the purpose of preparing the financial statements.

(i) Compliance with IFRS

The consolidated financial statements of the Rhinomed Limited Group also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

(ii) Historical cost convention

The financial statements have been prepared on a historical cost basis.

(iii) Going concern

At 30 June 2019, the Group's cash and cash equivalents amounted to \$1,421,315 (2018: \$1,263,122) and for the year ended 30 June 2019, the Group experienced a loss of \$5,940,742 (2018: \$4,004,324) and a net cash outflow from operating activities of \$4,493,527 (2018: net cash outflow of \$3,845,344). As disclosed in note 13, on 23 September 2019, Rhinomed Limited announced a capital raising of \$6 million (before costs), with these shares allotted on 26 September 2019.

Based on current budget assumptions, the Group has sufficient funds to meet current commitments towards promoting existing commercialised technology and further development of the technology platform.

There are significant risks associated with product development and regulatory approvals required by biotechnology companies, as such it is difficult to predict the exact timing and quantum of income from the commercialisation of products and technology and there are inherent uncertainties involved in raising funds from investors within forecasted timelines.

As a result of these matters, there is material uncertainty that may cast significant doubt as to whether the Group will be able to continue as a going concern and realise its assets and discharge its liabilities in the normal course of business and at the amounts stated in the financial report.

Notwithstanding the material uncertainty pertaining to the ability of the Group to continue to access additional capital and its future operating income, the financial statements have been prepared on a going concern basis. Accordingly the financial statements do not include adjustments relating to the recoverability and classification of recorded asset amounts, or the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

(iv) New and amended standards adopted by the Group

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 July 2018:

- AASB 9 *Financial Instruments*
- AASB 15 *Revenue from Contracts with Customers*

The Group has changed its accounting policies without making retrospective adjustments following the adoption of AASB 9 and AASB 15. This is disclosed in note 20.

19 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

(v) *New standards and interpretations not yet adopted*

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2019 reporting periods and have not been early adopted by the Group. The Group's assessment of the impact of these new standards and interpretations is set out below.

Title of standard	AASB 16 Leases
Nature of change	AASB 16 was issued in February 2016. It will result in almost all leases being recognised on the statement of financial position by lessees, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.
Impact	<p>The Group has reviewed all leasing arrangements in light of the new lease accounting rules in AASB 16. The standard will affect the accounting for the Group's operating leases.</p> <p>As at the reporting date, the Group has non-cancellable operating lease commitments of \$77,064, see note 12(a).</p> <p>The Group expects to recognise right-of-use assets of approximately \$66,013 on 1 July 2019 and lease liabilities of \$74,989 (after adjustments for prepayments and accrued lease payments recognised as at 30 June 2019). Overall net assets will be approximately \$8,976 lower.</p> <p>The Group expects that net profit after tax will increase by approximately \$8,796 for the year ended 30 June 2020 based on operating lease commitments as at 30 June 2019 as a result of adopting the new rules.</p> <p>Operating cash flows will increase and financing cash flows decrease by approximately \$77,064 as repayment of the principal portion of the lease liabilities will be classified as cash flows from financing activities.</p> <p>The Group does not act in the capacity as a lessor and hence the Group does not expect any lessor impact on the financial statements.</p>
Mandatory application date/ Date of adoption by Group	<p>The Group will apply the standard from its mandatory adoption date of 1 July 2019.</p> <p>The Group intends to apply the modified retrospective transition approach and will not restate comparative amounts for the year prior to first adoption. Right-of-use assets will be measured at the amount of the lease liability on adoption (adjusted for any prepaid or accrued lease expenses).</p>

There are no other standards that are not yet effective and that would be expected to have a material impact on the Group in the current or future periods and on foreseeable future transactions.

(b) Principles of consolidation

(i) *Subsidiaries*

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

19 Summary of significant accounting policies (continued)

(b) Principles of consolidation (continued)

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Rhinomed Limited.

(d) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Australian dollar (\$), which is Rhinomed Limited's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the consolidated statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the consolidated statement of profit or loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equities whose changes in the fair value are presented in other comprehensive income are included in the related reserve in equity.

19 Summary of significant accounting policies (continued)

(d) Foreign currency translation (continued)

(iii) Group companies

The results and financial position of foreign operations (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each consolidated statement of financial position presented are translated at the closing rate at the date of that consolidated statement of financial position
- income and expenses for each consolidated statement of profit or loss and consolidated statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income. When a foreign operation is sold or any borrowings forming part of the net investment are repaid, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale.

(e) Revenue recognition

The accounting policies for the Group's revenue from contracts with customers are explained in note 2.

(f) Government grants

Government grants are recognised when there is reasonable assurance that the grant will be received and all grant conditions will be complied with.

When the grant relates to an expense item, it is recognised as income over the periods necessary to match the grant on a systematic basis to the costs that it is expected to compensate.

(g) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

19 Summary of significant accounting policies (continued)

(g) Income tax (continued)

Deferred tax assets are recognised only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(h) Leases

The minimum lease payments of operating leases, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are recognised as an expense on a straight-line basis.

(i) Impairment of non-financial assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(j) Cash and cash equivalents

For the purpose of presentation in the consolidated statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the consolidated statement of financial position.

(k) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less loss allowance. See note 5(b) for further information about the Group's accounting for trade receivables and note 9(c)(iii) for a description of the Group's impairment policies.

(l) Inventories

Raw materials, work in progress and finished goods are stated at the lower of cost and net realisable value on a weighted average cost basis. Cost comprises direct materials and delivery costs, direct labour, import duties and other taxes. Costs of purchased inventory are determined after deducting rebates and discounts received or receivable.

(m) Investments and other financial assets

(i) Classification

From 1 July 2018, the Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through OCI or through profit or loss), and
- those to be measured at amortised cost.

19 Summary of significant accounting policies (continued)

(m) Investments and other financial assets (continued)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income (FVOCI).

(ii) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss (FVPL), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains/(losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the consolidated statement of profit or loss.
- **FVOCI:** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in the consolidated statement of profit or loss.
- **FVPL:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt investment that is subsequently measured at FVPL is recognised in profit or loss and presented net within other gains/(losses) in the period in which it arises.

(iv) Impairment

The Group assesses on a forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost and FVOCI. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Group applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables, see note 9(c)(iii) for further details.

19 Summary of significant accounting policies (continued)

(m) Investments and other financial assets (continued)

(v) *Income recognition*

Interest income

Interest income is recognised using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

(vi) *Accounting policies applied until 30 June 2018*

Classification

Until 30 June 2018, the Group classified its financial assets in the following categories:

- financial assets at fair value through profit or loss,
- loans and receivables,
- held-to-maturity investments, and
- available-for-sale financial assets.

The classification depended on the purpose for which the investments were acquired. Management determined the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluated this designation at the end of each reporting period.

Subsequent measurement

The measurement at initial recognition did not change on adoption of AASB 9, see description above.

Subsequent to the initial recognition, loans and receivables and held-to-maturity investments were carried at amortised cost using the effective interest method.

Available-for-sale financial assets and financial assets at FVPL were subsequently carried at fair value. Gains or losses arising from changes in the fair value were recognised as follows:

- for financial assets at FVPL - in profit or loss within other gains/(losses)
- for available-for-sale financial assets that are monetary securities denominated in a foreign currency - translation differences related to changes in the amortised cost of the security were recognised in profit or loss and other changes in the carrying amount were recognised in other comprehensive income
- for other monetary and non-monetary securities classified as available-for-sale - in other comprehensive income.

Impairment

The Group assessed at the end of each reporting period whether there was objective evidence that a financial asset or Group of financial assets was impaired. A financial asset or a Group of financial assets was impaired and impairment losses were incurred only if there was objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) had an impact on the estimated future cash flows of the financial asset or Group of financial assets that could be reliably estimated. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost was considered an indicator that the assets are impaired.

19 Summary of significant accounting policies (continued)

(m) Investments and other financial assets (continued)

Assets carried at amortised cost

For loans and receivables, the amount of the loss was measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that had not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset was reduced and the amount of the loss was recognised in profit or loss. If a loan or held-to-maturity investment had a variable interest rate, the discount rate for measuring any impairment loss was the current effective interest rate determined under the contract. As a practical expedient, the Group could measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreased and the decrease could be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss was recognised in profit or loss.

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. In the case of equity investments classified as available-for-sale, a significant or prolonged decline in the fair value of the security below its cost is considered an indicator that the assets are impaired.

(n) Property, plant and equipment

Property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

The depreciation methods and periods used by the Group are disclosed in note 6(a).

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 19(i)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

19 Summary of significant accounting policies (continued)

(o) Intangible assets

Intangible assets are initially measured at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. The useful lives of intangible assets are assessed to be either finite or infinite. Intangible assets with finite lives are amortised over the useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, which is a change in an accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in profit or loss in the expense category consistent with the function of the intangible asset.

(i) Goodwill

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- the consideration transferred;
- any non-controlling interest; and
- the acquisition date fair value of any previously held equity interest;

over the acquisition date fair value of net identifiable assets acquired.

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements.

Fair value uplifts in the value of pre-existing equity holdings are taken to profit or loss. Where changes in the value of such equity holdings had previously been recognised in other comprehensive income, such amounts are recycled to profit or loss.

Goodwill on acquisition of subsidiaries is included in intangible assets.

Goodwill is tested for impairment annually and is allocated to the Group's cash-generating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of.

Changes in the ownership interests in a subsidiary are accounted for as equity transactions and do not affect the carrying amounts of goodwill.

(ii) Intellectual property

Intellectual property acquired as part of a business combination is recognised separately from goodwill. Intellectual property is carried at cost, which is its fair value at the date of acquisition less accumulated amortisation and impairment losses. Intellectual property is amortised over its useful life commencing from the completion of development. The Group will carry its intellectual property at cost whilst it is under development and it is subject to annual impairment testing.

(iii) Patents and trademarks

Patents and trademarks are recognised at cost of acquisition. Patents and trademarks have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and trademarks are amortised over their useful lives.

19 Summary of significant accounting policies (continued)

(o) Intangible assets (continued)

(iv) Research and development

Expenditure during the research phase of a project is recognised as an expense when incurred. Development costs are capitalised only when technical feasibility studies identify that the project is expected to deliver future economic benefits and these benefits can be measured reliably.

Development costs have a finite life and are amortised on a systematic basis based on the future economic benefits over the useful life of the project.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

The carrying values of non-financial assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

(p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(q) Employee benefits

The Group's obligations for short-term employee benefits such as wages and salaries are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as employee benefit obligations in the consolidated statement of financial position.

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit obligations

In some countries, the Group also has liabilities for long service leave and annual leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period of high-quality corporate bonds with terms and currencies that match, as closely as possible, the estimated future cash outflows. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the statement of financial position if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

19 Summary of significant accounting policies (continued)

(q) Employee benefits (continued)

(iii) Share-based payments

Share-based compensation benefits are provided to employees via the 'employee share and option plan' (ESOP). Information relating to these schemes is set out in note 15.

Employee options

The fair value of options granted under the ESOP is recognised as a share-based payment expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g. the Company's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the Company over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or holdings shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

(r) Issued capital

Ordinary shares are classified as equity. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction (net of tax) of the share proceeds received.

(s) Loss per share

(i) Basic loss per share

Basic loss per share is calculated by dividing:

- the loss attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted loss per share

Diluted loss per share adjusts the figures used in the determination of basic loss per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

(t) Critical accounting estimates and judgements

The Directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

19 Summary of significant accounting policies (continued)

(t) Critical accounting estimates and judgements (continued)

(i) Impairment of intangible assets

In the absence of readily available market prices, the recoverable amount of assets are determined using estimations of the present value of future cash flows using asset-specific discount rates. For patents, licences and other rights, these estimates are based on various assumptions concerning for example future sales profiles and royalty income, market penetration, milestone achievement dates and production profiles. Refer to note 6(b) for further details.

The Directors conducted an impairment assessment of the Group's intangible assets as at 30 June 2019 and concluded that an impairment charge was not necessary. The Directors assessed that intellectual property and development costs have a finite useful life of 9.5 years. Intangible assets have been subject to an impairment test whereby the recoverable amount was compared to their written-down value. Recoverable amount has been determined by the Board by preparing a value-in-use calculation using cash flow projections over a five-year period with a terminal value calculated on a perpetual growth basis, a fair value calculation using cash flow projections over a five-year period applying a terminal value on EBIT multiple basis, and taking the higher of the two in accordance with Australian Accounting Standards. The cash flows were discounted using a pre-tax discount rate of 20 percent (2018: 20 percent) at the beginning of the projection period. The projections reflected the Board's best estimate of the product's expected market share, its expanding distribution network and the Group's revenue stream. Gross profit was determined factoring in expected cost structures as well as estimated inflation rates over the period. A possible reasonable change in the discount rate or store numbers would not result in an impairment of the intangible assets.

(ii) Impairment of receivables

The decision whether or not to provide for the impairment of a receivable (provision for expected credit losses) requires a degree of estimation and judgement. The level of provision is assessed by taking into account the ageing of receivables and specific knowledge of the individual debtor's financial position.

(iii) Share-based payments

The value attributed to share options and remuneration shares issued is an estimate calculated using an appropriate mathematical formula based on an option pricing model. The choice of models and the resultant option value require assumptions to be made in relation to the likelihood and timing of the conversion of the options to shares and the value and volatility of the price of the underlying shares. Refer to note 15 for more details.

(u) Rounding of amounts

The Company is of a kind referred to in ASIC Legislative Instrument 2016/191, relating to the 'rounding off' of amounts in the financial statements. Amounts in the financial statements have been rounded off in accordance with the instrument to the nearest dollar.

(v) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the consolidated statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

20 Changes in accounting policies

This note explains the impact of the adoption of AASB 9 Financial Instruments and AASB 15 Revenue from Contracts with Customers on the Group's financial statements.

(a) AASB 9 Financial Instruments – impact of adoption

AASB 9 *Financial Instruments* replaces AASB 139 *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement, impairment and hedge accounting. The adoption of this standard has not materially impacted the amounts disclosed in these financial statements.

(i) Classification and measurement

Except for certain trade receivables, under AASB 9, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

Under AASB 9, debt financial instruments are subsequently measured at fair value through profit or loss (FVPL), amortised cost, or fair value through other comprehensive income (FVOCI). The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding (the 'SPPI criterion').

The new classification and measurement of the Group's debt financial assets are as follows:

- Debt instruments at amortised cost for financial assets that are held within a business model with the objective to hold the financial assets in order to collect contractual cash flows that meet the SPPI criterion. This category comprises trade receivables and financial assets at amortised cost (i.e. term deposits).

The assessment of the Group's business models was made as of the date of initial application, 1 July 2018 and then applied retrospectively to those financial assets that were not derecognised before 1 July 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets. There has been no adjustment made to the amounts disclosed as a result of the application of this standard.

(ii) Impairment of financial assets

The adoption of AASB 9 has altered the Group's accounting for impairment losses for financial assets by replacing AASB 139's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

AASB 9 requires the Group to record an allowance for ECLs for all loans and other debt financial assets not held at FVPL.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

For trade and other receivables, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The adoption of the ECL requirements of AASB 9 has resulted in the recognition of a \$58,138 impairment allowance of the Group's debt financial assets, refer to note 9(c)(iii).

20 Changes in accounting policies (continued)

(b) AASB 9 Financial Instruments – accounting policies applied from 1 July 2018

Investments and other financial assets

The accounting policies applied by the Group from 1 July 2018 are set out in note 19(m).

(c) AASB 15 Revenue from Contracts with Customers – impact of adoption

AASB 15 supersedes AASB 111 *Construction Contracts*, AASB 118 *Revenue* and related interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under AASB 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The adoption of AASB 15 has not impacted the amounts disclosed within the financial statements. It did result in deferred revenue being recognised as part of contract liabilities from 1 July 2018. Deferred revenue for the year ended 30 June 2018 is stated on the face of the consolidated statement of financial position.

(d) AASB 15 Revenue from Contracts with Customers – accounting policies applied from 1 July 2018

Revenue recognition

The accounting policies applied by the Group from 1 July 2018 are set out in note 2(b).

For personal use only

In the Directors' opinion:

- (a) the financial statements and notes set out on pages 23 to 65 are in accordance with the *Corporations Act 2001*, including:
- (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the consolidated entity's financial position as at 30 June 2019 and of its performance for the financial year ended on that date, and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Note 19(a) confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of Directors.

Mr Michael Johnson
Executive Director

Melbourne
30 September 2019

For personal use only

**INDEPENDENT AUDITOR'S REPORT
to the Members of Rhinomed Limited**

REPORT ON THE AUDIT OF THE FINANCIAL REPORT

Opinion

We have audited the financial report of Rhinomed Limited ("the Company") and its controlled entities ("the Group"), which comprises the consolidated statement of financial position as at 30 June 2019, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2019 and of its financial performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* ("the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Regarding Going Concern

We draw attention to Note 19(a)(iii) of the financial report, which indicates that the Group incurred a loss of \$5.941 million (2018: loss of \$4.004 million) had a net operating cash outflow of \$4.494 million during the year (2018: net cash outflow of \$3.845 million). These conditions, along with other matters set forth in Note 19(a)(iii), indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matter described below to be the key audit matter to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Impairment of intangible assets Refer to Note 6(b) <i>Intangible Assets</i></p>	<p>Our procedures included, but were not limited to:</p> <ul style="list-style-type: none"> • we assessed management’s determination of the Group’s CGU based on our understanding of the nature of the Group’s operations. We also analysed the internal reporting of the Group to assess how earnings streams are monitored and reported; • we evaluated management’s processes for assessing whether any impairment losses have been incurred with respect to the Group’s assets; • we tested the Group’s processes for preparing and reviewing budgets; • we assessed the Group’s assumptions and estimates used to determine the recoverable value of its assets, including those relating to forecast revenue and cost and discount rates; • we checked the mathematical accuracy of the cash flow models and agreed relevant data to the latest forecasts; • we assessed the historical accuracy of forecasting by the Group; and • we performed sensitivity analysis over the model by focusing on the impact of changing growth and discount rates.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

For personal use only

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON THE REMUNERATION REPORT

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 10 to 18 of the directors' report for the year ended 30 June 2019.

In our opinion, the Remuneration Report of Rhinomed Limited for the year ended 30 June 2019 complies with section 300A of the *Corporations Act 2001*.

For personal use only

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
