MAKE EVERY BREATH COUNT

### RHINOMED REPORTS DOUBLE DIGIT YEAR ON YEAR GROWTH

### TOPLINE

- FY20 Q2 Quarterly Receipts up 45% quarter on quarter to \$920k
- Year on year growth continues with Q2 Recognised revenues of \$762k
- Distribution set to grow in Australia and the US following strong sell in period.
- Columbia Care to launch nasal delivered cannabis product in first half CY 2020

### January 31st, 2020. Melbourne, Australia.

Rhinomed (ASX:RNO OTCQB:RHNMF) a leader in nasal delivery technology is pleased to report continued year on year revenue growth for the half year ended 31st December 2019. Recognised revenues of \$762k for FY20 Q2 were up 23% on the same period last year.

Additionally the company saw a 45% jump in quarterly customer receipts to \$920k as sell through from its store base continue to grow and trading terms with major customers continues to improve.

Half year recognized revenues were up 19% Year on Year to \$1.6m with an additional \$946k invoiced but yet to be recorded as recognized revenues. Rhinomed remains confident that revenues will continue to grow in the second half of FY20 as the combination of new stores stocking Mute and the new Pronto technology and the effect of the the promotional and marketing activities now underway begin to take effect.

### Year on Year Quarterly Revenues

## **RHINOMED** MAKE EVERY BREATH COUNT

#### **Operational and Distribution Update**

In line with the revenue growth, shipment of units continued to respond to demand across three continents. Over 74,000 units were shipped to customers.

The company continues to pursue discussions with category buyers in both existing and new accounts. The company was particularly pleased to add major US midwest grocery/mass market chain Meijer to the network of retailers in the USA. Meijer is a 242 strong retailer with a major presence in Michigan, Illinois, Indiana and Ohio in the USA. Meijer becomes the first major US retail chain to not only stock Mute and Pronto Sleep but also stock our new Pronto Clear product. Meijer will begin selling stock in Q3 of FY20.

The company expects to see significant growth in store numbers both within the North American and ROW markets throughout CY2020.

#### **Cumulative Stock Shipped by Quarter end**

Receipts from customers continues to grow to \$920K (YTD \$1.6m) as an increased number of sales have been completed through larger retail channel partners on trading terms.

Net Cash used in Operating Activities was \$2.2m which included payments for:

- Research and development: This has remained constant \$209k (YTD \$303k) which covers the company's new technology development program.
- Production costs: \$330k (YTD \$479k) reflects the prudent use and management of stock globally.
- Marketing and Promotion: \$1.26m (YTD \$1.88m) of which \$158k was prepayment for marketing activities that are now underway in FY20 Q3.
- Staff Costs: \$875k (YTD- \$1.44m) covering changes to the team across the Australian and US operations.
- Administrative expenses: \$523k (YTD \$975k) includes renewal of insurances which is an increasing burden for listed entities.

At the end of the quarter the company had a closing cash balance of \$3.6m and Account receivables balance of \$1m which positions the company well for future activities. The company is currently preparing its FY2019 R&D tax claim.

## **RHINOMED** MAKE EVERY BREATH COUNT

We are pleased to see a strong response from the Australian market to recent promotional and sales support. Additionally, the company's Mute product continues to lead the US nasal strip category in year on year growth as reported by Industry researcher IRI.

The company is also pleased to acknowledge receipt of a Drug Store New Retail Excellence (REX) Award in the Natural products category.(<u>https://drugstorenews.com/rex-awards-2020-natural-products</u>). This recognition, alongside strong same store sales data provides the company with continued confidence that its retail network will continue to grow in parallel to the increasing awareness of the Mute and Pronto technologies.

At 31 December 2019, we hold \$946k as 'unrecognised revenue', classified as a liability in the statement of financial position. This balance represents those goods that have been shipped by us to the customer, and are held by the customer on their shelves until the performance obligation is met - when the goods are acquired by our customer's retail consumers.

### **Current revenue treatment status**

	Stock Shipped	Recognised revenues	Unrecognised Revenues	A/c receivables
FY20 YTD Total	141 k	\$1.6 m	\$0.946m	\$1m

### Successful release of Pronto technology

The company has in line with guidance successfully released the next generation of its nasal technology with both Pronto Sleep and Pronto clear now on market.

### **Products in Market**

These two new product lines bring the total number of products on market to four - with an additional 2 planned for release during 2020. The Pronto Clear is targeting the US\$6.8bn global nasal cold and decongestant market, while the Pronto Sleep is targeting sleep onset issues in the \$0.79bn global sleep aid market. With the key consumer health themes of sleep and the desire for more natural products only growing, the Rhinomed Pronto range is well positioned to exploit a significant global opportunity.

### **RHINOMED** MAKE EVERY BREATH COUNT

#### Columbia Care Medical cannabis program

As previously announced the company completed a landmark nasal drug delivery licensing deal with US based Columbia Care in September 2018.

This deal will see Rhinomed's nasal platform used by Columbia Care to deliver nasal medical cannabis formulations. The company has optimised the platform for use by Columbia Care and production is now underway. The company expects to be able to update investors with details of the commercial launch of the new Columbia Care nasal product shortly. With the US CBD market growing rapidly and with residual concern about both Vaping and ingestible forms of CBD, the potential for nasal delivery of CBD is significant.

### **Business development**

Interest in the company's technologies from the global Over the Counter (OTC), consumer health and sleep medicine community continues to grow at a rapid rate. This strongly illustrates the growing recognition of the importance of the nose and nasal resistance and airflow and its impact on both efficacy and compliance with a range of other sleep therapies, including CPAP and oral devices.

#### **Future focus**

The key focus of the company remains reaching a sustainable cash flow position. The growth in store numbers provides the company with a strong base from which it can build a steady and strong growth in customer numbers.

Rhinomed continues to build a reputation and be recognised as an innovator and global leader in improving nasal drug delivery, airflow, breathing and sleep. The strong interest in the company's progress continues to open up opportunities for strategic relationships that will further assist the company to expand its footprint.

### **Compliance statement**

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 31 January 2020

### Notes

- 1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
- 2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
